Dear Participant,

In order to make your participation in the ICEF Berlin Workshop and your stay in Berlin most valuable and enjoyable, please read carefully through the following:

1. Venue

The ICEF Berlin Workshop 2015 will take place in the Potsdam Halls, the Pavilion, Room Bellevue, Tegel, Tiergarten, Glienicke and Koepenick on the ground floor of the Hotel InterContinental in Berlin. Please refer to the enclosed floorplan as a guide to all workshop areas.

The address of the **InterContinental Berlin** is:

Budapester Strasse 2, 10787 Berlin, Germany
Tel.: +49-30-26020 Fax: +49-30-2602 2600
Email: berlin@ihg.com
Web: www.berlin.intercontinental.com

2. Nature of ICEF Workshops

The ICEF Berlin Workshop is designed to provide study abroad agents, educators, work & travel and service providers with the opportunity to meet and undertake brief discussions during 25-minute-long business meetings which are indicated by a bell / gong.

These discussions are useful for purposes such as introductory meetings between parties who have not previously worked together, to examine the possibility of business co-operation in the future, or for brief liaison discussions between already established partners. More extensive discussions with a potential partner can be arranged by scheduling another business meeting or by making arrangements to meet during refreshment breaks or meals. Each meeting will be followed by a five minutes transfer time, so agents can go to their next meeting.

Discussions take place at tables / booths allocated to each participating educator / service provider.

***Important:** Please try to keep meetings once they are confirmed. If you cannot keep a meeting, please inform the other participants ahead of time so that they can schedule a meeting with somebody else. Since no-shows are regarded as serious business misconduct we encourage participants to inform us about any no-shows that they may have during the two days of the workshop.*

Prior to, during and after the workshop, hosted agents are not allowed to use the event for their own commercial purposes by trying to sell or offer services / products (e.g. advertisements in publications or on websites, tours etc.) to any of the participants attending the workshop. Should this situation occur, providers are encouraged to complete a yellow "no -show/ comment" slip and leaving it visible on their table for ICEF staff to collect. Participation of agencies, who are found to be in breach of the terms and conditions, will be immediately cancelled and the agency will be excluded from attending any further ICEF events.

The ICEF Berlin Workshop should be attended from 08:30 to 19:00 on November 02 and from 08:30 - 18:30 on November 03. Should you need to leave the event early please inform ICEF in advance. Participants may also not attend any hospitality events, seminars or tours organised by third parties during the official workshop sessions.

3. Last-minute Meetings / Marcom Onsite

In case your meeting schedule is not full at the beginning of the workshop, you will still have the possibility to maximise the number of your meetings in the morning of each workshop day (Monday and Tuesday from 08:00 – 08:30) when additional meetings may be scheduled through personal contacts between participants.

Participants will also be able to access their schedule, send messages to others and arrange last-minute meetings on-site via their mobile devices. **Marcom Onsite** is an innovative solution which complements Marcom eSchedule PRO, allowing you to:

- Access your schedule with all meetings made via Marcom eSchedule PRO
- Schedule last-minute meetings on-site (opt-in required)
- Take meeting notes
- Send messages to other participants
- Rate seminars

Workshop Procedures

To be able to schedule last-minute meetings please select the option “last-minute meeting scheduling” when you first log-in to Marcom Onsite. Your MyICEF login details are also valid for Marcom Onsite.

4. Message Boxes for Agents

Each agency has a message box located behind booth No. 1 in the hotel’s main lobby, which may be used for leaving individual messages and meeting requests. Agencies will be listed alphabetically by country followed alphabetically by agency name.

Please do not leave anything of value in the message box. Anything, information or otherwise, left in the message boxes is at your own risk. We recommend that agents check their organisation’s message box at least four times a day.

5. Registration

Onsite workshop registration will take place on Sunday, November 01, 2015, from 09:00 to 21:00 at the ICEF hospitality and registration desk located in the main lobby (on the ground floor) of the Hotel InterContinental. There you will receive your registration package including your badge, a print-out of your meeting schedule as well as the workshop catalogues. Participants arriving after the registration period stated above can register on Monday, November 02, 2015 from 08:00 onwards. Onsite workshop registration is sponsored by **DPMC**.

6. Badges

As the workshop is a protected trading environment, anyone not wearing a badge may not be admitted into the workshop area. Please also understand that for the same reason we cannot allow non-registered family, friends or staff to enter the workshop halls.

16:00 - 17:00**Where Are the Students? Mobile Technology, Big Data and Market Penetration****Duleep Deosthale****Topic: Marketing & Recruitment****Audience: Providers****► Session description**

The current generation of prospective students are frustrating the recruitment efforts of universities. The short attention span, an emphasis on bite sized information, an informal language coupled with a preponderance for the visual over the written word all have become a challenge for current marketing approaches. So how does one respond? It is big data that becomes critical in helping understand the current generation's behavioral patterns and attitudes from the mundane to the complex in order to engage with them. Furthermore, how does one penetrate into markets to find those elusive gifted students from beyond the select metropolitan destinations which account for a tiny fraction of prospective international students. Recruiting efforts must be scalable and sustainable. Mobile technology gives us the power to engage with a generation in their terms. A generation that has little or no interest in accessing or using desktops or laptops, be it by design and / or by circumstances. The gamification generation is looking beyond and we have to respond appropriately or become obsolete.

Anti-Marketing - Doing Business in a Slightly Different Way

Adrian Liley

Topic: Marketing & Recruitment

Audience: All

► Session description

Anti-Marketing is not a complete rejection of what we would generally call traditional marketing. It is simply good marketing in an age of scepticism, mistrust and cynicism. The session will look at the various elements which make up Anti-Marketing - Reverse Psychology, Trust-Based Marketing or 'Principled Selling'; Defensive Pessimism; Storytelling; 'Shockvertising' and Accidental Marketing. It is a way of showing the customer that less is actually more in many cases.

Basically, this is a way of doing business the 'wrong' way, but getting results at the end of the day.

The Rise of the Selfie: How Marketers Can Leverage Digital Trends in Pop Culture

Chris Price & Anthony Lee & Jacqueline Kassteen

Topic: Marketing & Recruitment

Audience: All

► Session description

In this session we'll offer examples of brands - in the education industry and beyond - that have successfully taken advantage of "the latest craze" (i.e., selfies, the Ice Bucket Challenge, memes, Gangnam style) by using pop culture trends in their marketing and digital media efforts to build brand awareness, enable brand attributes to resonate with prospects, and better connect with young people.

Throughout the use of these examples, we will share best practice tips when engaging with current and prospective students, as well as alumni, on social platforms (i.e., Twitter, Instagram, Youtube, Youku, Vine).

Furthermore, we'll look at how key characteristics of the Millennial generation align with current trends. In doing so, we will show the audience how we might use these characteristics and behavioural tendencies (as well as innovations in the tech industry) to predict future trends.

Attendees will walk away with a full toolkit of information so that when the next trend pops up, they are prepared and can act quickly to leave a lasting impression with students. Tools include a checklist of how to identify a real trend, a planning structure to determine whether it is right or wrong for your brand to react to the latest trend, and a tracking system to determine the success of the campaign.

Recruiting from Nigeria: Market Trends and Future Potential

Felix Olugbenga Adedayo

Topic: Market Intelligence

Audience: Providers

► Session description

Nigeria with a population of over 170 million people and still growing is the most populous black nation in the world. Nigeria could be the world's third most populous country by the end of the 21st century according to UN projections. Nigeria has the world's 7th largest oil reserves. Its GDP growth has been around 7% for the last few years as compared to 2.8% in the US in 2012 and less than 1% in the UK. Nigeria is definitely a country with potential, but with insufficient educational institutions to meet the demands of its growing student population. The numbers of universities and higher education institutions in Nigeria cannot meet the required demand of students who are seeking admission into higher education institutions in the country. Every year over one million students normally take the Nigerian university entrance examination (called JAMB), last year alone, 1.2 million students took and passed this examination, but unfortunately Nigerian universities can only admit 450,000 students, meaning that the remaining students who could not get admission into any of the nation's universities would have to look for admission elsewhere in different countries around the world. Nigeria is today placed third on the list of countries with the highest number of students studying abroad.

Student recruitment marketing in Nigeria is a huge market with great potential.

Market Diversification and the Strategic Risk Implications**Pamela Barrett****Topic: Marketing & Recruitment****Audience: Providers****► Session description**

Business as usual in international higher education is no longer an option. Increasing dependence on fewer markets driven by demographic realities requires a more creative, expensive and potentially riskier approach to student recruitment, overseas delivery and partner development. Growing financial demands on higher education institutions worldwide has led to increased competition among the Big Four (USA, UK, Australia and Canada) for the “best” students. Combine this with increased participation from other countries in Europe and Asia in particular, and a more complex pattern of student decision-making behaviours. The result is that successful international education professionals are operating in a changing, increasingly competitive and highly charged global business.

This seminar will consider these challenges and how a corporate approach to strategic risk management can provide some solutions to market diversification challenges.

Our students are 30% Dutch, 20% French and 10% British, 10% Canadian, 10% American, and the remainder are from South American and African countries. We have about 20 students that come by boat from the neighboring island of Anguilla each day. We are a Day School and also have a small boarding school on campus which has room for 8 girls and 8 boys. Boarding School students are students from grade 9 to 12, but grade 7 and 8 students are also given consideration. We are interested in marketing our boarding school to interested international Students who would eventually graduate and go on the University in another county.

◀ **Dr. Utz Federico Hoeser**
General Manager

Academias Latinas is composed of Academia Buenos Aires, Academia Uruguay and Academia Bariloche, three independent leading Spanish-language schools under the same management and ownership since 2004. All three schools share the same standards and cooperate on an academic and administrative level. Agents will appreciate a central invoicing and reservation system, a complete product range and similar prices in all schools as well as the possibility to sell a city-hopping product with a quality guarantee. All three schools are accredited nationally by the respective language school Association and internationally either by Tandem® or the Instituto Cervantes. All are highly recommended in the major guidebooks for travelers and enjoy substantial word-of-mouth propaganda. Our schools are members of the Amerigo network of quality schools and members of the Network for Responsible Tourism. Apart from the general Spanish courses we offer specific courses for physicians, dancers, Bildungsurlaub, businessmen, teachers, diplomats etc. More than a thousand students per year from around the world choose our schools, both groups and individual travelers. They appreciate our daily free cultural activities, free volunteering projects and the possibilities to live like and with the locals. We are interested in meeting quality agents from around the world who share our passion for language learning and offering professional service to each and every customer.

Sun Pacific College is located in the beautiful suburb of Kewarra Beach, 20 kilometers north of Cairns in tropical North Queensland, Australia. This location is relaxed, calm and surrounded by nature with sandy, palm tree lined beaches to one side and world heritage rainforest to the other. Both are an easy 10 minute walk from the college giving students access to many opportunities for healthy pursuits. This is not a touristic location, so nearby cafes are filled with local people enjoying the laid back way of life.

The college campus is a large purpose-built educational facility, set among palm trees, fruit trees and gardens. It is the perfect setting for students to improve their English language skills. Much effort has gone in to providing an exceptional facility in addition to the quality English language programs. Students are able to enjoy free sporting facilities, including a heated 25 meter swimming pool, full sized basketball and tennis courts (floodlit at night), a gym and a golf practice area. Sporting and social events are organized every day.

Accommodation options are either on campus in our student dormitories, with meals in our dining room, or with local Australian families in Homestay. Many of our host families live locally, meaning students can usually come to college on foot or by bike.

The first of its kind in the heart of Europe, AMADEUS International School Vienna offers a unique blend of rigorous academics, innovative music and arts education, and optional boarding in superior facilities.

Our educational programme for children aged 3 to 18 (Early Years 1 – Grade 12), taught in English, is based on the globally recognised International Baccalaureate. We believe that education is a process, full of opportunities to explore, discover, create, develop, and enrich knowledge, skills, and perspectives.

Music and the Arts represent forms of human expression that are deeply tied to history and culture. This is especially apparent in a city like Vienna and we harness that atmosphere and inspirational environment. Our arts programme offers the possibility for students to explore their talents, find their strengths, gain further expertise in areas of interest, and grow as individuals. Students of all artistic inclinations, levels, and talents are welcome at our school.

AMADEUS Vienna has a strong sense of community and inclusion. We promote a healthy and balanced lifestyle that emphasises fresh and nutritious food, physical exercise, and overall well-being. Unique among Vienna's international schools, we offer optional on-campus boarding for our secondary students. As part of Nobel Education Network, we are connected to international schools and students around the world that cooperate, collaborate, and share expertise.

Sea to Sky School District is located just 40 minutes north of downtown Vancouver and nestled between the mountains and the Pacific Ocean. The District encompasses three communities; Squamish, Whistler, and Pemberton.

We have ten elementary schools, one junior high and three high schools. Our schools offer the latest in technology, high quality science labs, art, drama and music rooms. Our schools offer the highest in academic teaching and provide support and counselling to ensure students will enter universities across North America. ESL support is provided for all students. We offer monthly activities so students can participate in sightseeing, and cultural events around the province.

Our home stay program is managed by the school district and our families are carefully selected and matched to students. Our communities are safe, family friendly but close enough to the city for weekend excursions. We are world renowned for our healthy active life style.

Sports programs include skiing, snowboarding and mountain biking and rock climbing as well as the traditional school sports.

Our International program is small but brings together students from around the world to connect in friendship and in appreciation of different cultures. All this awaits you in Sea to Sky Country.

Inaugurated in 1992, French In Normandy is a small family run school which offers those wishing to learn or to improve their French a winning combination: top quality teaching and an exciting social and cultural programme in the beautiful and historic region of Normandy (just one hour from Paris).

Our school is located opposite the Botanical Gardens area, in the heart of the left bank residential area with its 19th century architecture, just a short step from the bustling modern downtown and only 25 minutes walk from the historic city centre. Rouen's medieval city centre is pedestrianised and offers excellent shopping, a wide range of cafes and restaurants, as well as museums and historic monuments.

French In Normandy can offer you an exciting and innovative programme selection and whatever your French Language Training needs, French In Normandy will have the solution.

◀ **Mr Whitney Sterling**
Head of Boarding School

BBIS Boarding School is an IB World School. All instruction is in English given by native English speaking teachers.

The boarding students in grades 9 to 12 live on campus, complete our rigorous academic programme, receive homework help and participate in many extracurricular activities.

The large single or double rooms with en suite showers, the common rooms and the boarding school courtyard help the students enjoy their education in a nurturing atmosphere.

The International Baccalaureate is recognized as qualification for study in Germany, Europe, USA, Canada and many other countries. BBIS IB graduates attend top universities worldwide.

BBIS has 700 students from over 60 countries. 60 of these are boarding students from South Korea, China, Japan, Israel, Russia, Bulgaria, Brazil, Romania, Poland, Germany, Italy, Iran, the Netherlands, Lithuania, Mexico, Taiwan, Turkey and the USA along with still more countries.

We expect our boarding students to:

- maintain a healthy lifestyle
- achieve their academic potential to the fullest
- learn international understanding through culture sharing.

All the boarding school offerings including the living space, duties, projects, routines and after school and weekend activities are conceived to further these goals and provide students with a nurturing and safe environment.

Currently, due to residency permit regulations, non-EU boarding students must be at least 14 years of age to attend our boarding school.

Located in the heart of Europe in Germany, Cologne Business School provides a wide range of Business Administration and Economic courses, reaching from Preparation 4 University to Bachelor, Master and MBA degrees. In addition, our students receive international experiences in the context of a study abroad semester as well as practical experiences due to a mandatory internship. Furthermore, our students will be educated in personal skills to improve their social abilities as all courses include management training. Our students also have the opportunity to advance their language skills by choosing a second or even third foreign language.

All our study programs are taught in English, except "Internationales Management", "General Management" and "Wirtschaftspsychologie". Those are taught in German.

Many partners from the business world help to enrich the educational experience at CBS. We provide expert lectures and state of the art case studies, among other offerings. Thanks to our close contact to companies, we designed a curriculum that gives students the exact skills companies need and expect from their future employees. The result: great career prospects for our graduates.

CBS provides a very personal atmosphere: professors know their students by name, study groups are small and participate in several events together, even outside the university. This eventuates in an atmosphere of trust.

e2 – education abroad (e2) is one of the leading organizations for long-term international student exchange in Germany. It provides high quality educational programs to international students – both in high school and university. e2 is the successor of the non-profit Eurovacances Youth Exchange GmbH, set up in 1979.

Since not only German high schools but also German universities are very high in demand among international students, e2 established the new Hamburg City College (HCC). It prepares students from any country for their application to all public (no tuition fees) and private universities in Germany. With its specially designed e2 Language Course and the ensuing HCC Foundation Course, it brings students on the fast track to be eligible to attend undergraduate programs at a German university.

Background information: For the past 36 years, the organization has helped 20,000 German students to spend a high school year, a semester or a trimester abroad. In return, e2 provides the opportunity for young people from all over the world to live in a carefully selected host family and attend a local high school in Germany. Almost 2,000 international students experienced what it is like to spend an exchange year in Germany.

Mr Harald Thomas

Assistant

The FDI was founded on request from the industry in 2008.

Studying Fashion Design at one of the most innovative Fashion Design colleges in Germany prepares upcoming graduates comprehensively for their future career in the fashion industry. Fashion Design is a very complex process that goes beyond the development of a concept to a finished model, in so far as it involves the fundamentals of presentation and visual communication. Precisely these requirements can be met by the three training and study courses Fashion Journalism, International Fashion Design and Fashion Management at Fashion Design Institut. Fashion is subject to cyclical change. Hence, a reliable instinct for trends just as important as an understanding of sociocultural backgrounds— essential skills for Fashion Journalism.

Partners:

That's why we execute our study programmes in cooperation with our partner universities, the Italian Istituto Europeo di Design (IED) and the University of the Arts London (UAL London).

From October 2015, the assistance of John Galliano by "Maison Margiela" will be appointed as professor for the subject "International Fashion Design" for all the Bachelor Courses.

Lisa-Marie Mewes, did after her degree at FDI, her Master at IED and she works now for Condé Nast as a stylist and did photo sessions for Vanity Fair & Vogue Italia.

The school board includes: Holy Group, Guido Maria Kretschmer & van Laack.

Duna International College has been established in 2010 in association with prominent professors from Hungarian and American universities in order to prepare the students who come and study for a university degree in Hungary and in Slovakia. All programs are offered in English. Since Hungarian universities have an entrance exam, it is crucial for the students to join a preparatory course and in this respect Duna International College runs preparatory and regular courses for those students who will continue their higher education at Hungarian or Slovakian state universities. The study programs at Duna College include: Pre-medical, Pre-engineering and Business which are the pathways to start studying in Medical sciences (Medicine, Dentistry, Pharmacy & Physiotherapy), Engineering programs, Business, Management & Tourism.

Cavendish School of English is a family-run language school, established 1983 and is famous for its holiday camps – all year round, offering more excursions than any other language school and a daily pickup/drop-off service from/to host families for an unbelievable price. That is possible due to its ownership of a coach and bus company. The main centre is located in a quiet residential area of Bournemouth and has been providing expert English language training for students of all ages (5-99) and nationalities. More than 200,000 students have benefitted from its courses so far. Cavendish School has two permanent centres in the UK and one in Malta and is only 1 out of 2 language schools who have permission to operate from historic Valletta (Malta). Accommodation is residential, homestay and executive homestay. Cavendish School is accredited by British Council and is a member of EnglishUK and several other bodies.

Clubclass Language Schools started operating in January 1999 when the school in Malta opened its doors to foreign students for the first time. Over the years, the school in Malta has taught English as a foreign language to over 25,000 students from 50 different countries. Following the success in Malta, in 2012 Clubclass' Directors decided to put to further fruition their vast experience in the EFL business by acquiring, re-branding and relocating a school in one of the key EFL destinations in the world – London. Both schools are accredited by the leading accreditations in their respective countries – FELTOM in Malta and British Council and English UK in London.

John McGlashan College was founded in 1919 and successfully combines its rich heritage with an up to date educational philosophy, state of the art academic and sporting facilities and highly professional and innovative teaching staff. As well as offering the full range of New Zealand qualifications, John McGlashan College is also an International Baccalaureate school. It is the only school in the South Island where boys can study for this rigorous and highly regarded qualification, which is widely recognised around the world and draws in outstanding students. Many of our students win esteemed national and international scholarships and have gone on to successful careers in professional fields, business and academic research.

Each year, John McGlashan College welcomes students from many different countries into our International Student Programme. We have a roll of 520, which normally includes between 25 and 35 students who come to us from all over the world. As well as working towards internationally recognised qualifications, we think they can benefit greatly from being part of one of the most prestigious boys' schools in New Zealand.

International students have the choice between the boarding house, which is on campus, or a home stay, and are well supported with their English and with their pastoral needs by a professional team in the International Department.

BAI Languages & Sports is located in Mataró, Spain, a coastal city just 30 minutes north of Barcelona.

Our independently owned and operated school specializes in Junior students (11-17 years old) and offers individual and small-group multi-activity programmes during the summer months. Students may choose either family or residential accommodation. As well, we offer mini-stays for school groups year-round. These are attractive, interesting, and affordable. Additionally, we offer full-immersion programmes year-round to small groups and individuals who study Spanish or English while participating in one or more of the following sport or activities: soccer, tennis, basketball, waterpolo, equestrian, synchronized swimming, futsal, sailing, field hockey, golf, dance, music, and others. Students are matched with families into which they can fully integrate. Furthermore, another popular programme we offer includes clubs and teams of any of the above sports bringing their own trainers to practice at our facilities and also to compete with local Spanish teams in friendly matches. Or, we can provide your teams with top professional coaches to oversee their training and likewise compete against local Spanish teams. Language study is optional in these programmes.

◀ **Mr Douglas Haines**
General Manager and Owner

Spark Spanish is a family and personally run language school on the south west coast of Spain, in the wonderful town of El Puerto de Santa María, in the province of Cádiz, Andalusia. El Puerto is 100km south of Seville and just across the bay from the city of Cádiz. It is an authentic Andalusian town with very little influence from foreign tourism, making it a great place to learn and practice Spanish = "study Spanish where the Spanish go on holiday".

We run a variety of Spanish courses for Adults, Summer Camps for Juniors (in 4 venues, 3 in Cadiz and 1 in Madrid), School/Junior Group Tours as well as Adult Group Tours and language holiday packages that can be customized to each group's needs. For all programmes we offer the option of accommodation on site in our 'Sparkville' residence (or summer camp venues), home-stay opportunities with local families, hotels or lodging in private houses or apartments.

Our motto, "your learning, our passion" encompasses who we are and what we strive to do. For this reason, we are interested in collaborating with partners both large and small who have the same passion as we do for language learning.

Mr Samuel Porchet
Boarding School Director

International Boarding School of Lausanne (Switzerland) - École Nouvelle de la Suisse Romande was founded in 1906. Located in Lausanne, the school enjoys a privileged position in the centre of Europe in the French-speaking region of the Lake "Léman". Based on respect, the school encourages a desire of excellence.

The school registers each year 650 students from pre-school to high school. In addition to the Swiss Maturité and International Baccalaureate programmes, the school offers summer and winter camps in the beautiful Swiss Alps as well as sailing camps on the sea shores. Because the students come from many different cultures, the school strives to be open to the world and promotes education based on peace and tolerance.

The senior school programme proposes two cycles: a preparation period (9th and 10th grades) where students choose their diploma options (11th and 12th grade): the Swiss maturity or the International Baccalaureates. The International Baccalaureate can be taken in French or in the bilingual option - in French and English.

The school provides boarding facilities for young girls and boys (50 to 54 boarding students every year) from 12 years old and upward. The students are housed into individual or twin rooms. A large variety of recreational, cultural and sporting activities are organised to complement boarding school life as well as week-end outings.

Institut Monte Rosa is an international co-educational boarding school. Founded in 1874, its main aim is to prepare students for university entrance.

Students planning to attend American universities are prepared for College Board examinations and receive the High School Diploma on successful completion of the 12th grade. Specially designed courses are available for entry to business or other colleges. Admission is based on previous academic records, together with a personal recommendation from the Headmaster or Principal of the previous school and, if thought necessary, a short entrance examination.

The special Winter Holiday Courses (January to February) offer students the possibility of taking intensive English and/or French classes (20 lessons per week). In the afternoons and on Sundays, there are skiing and snowboarding excursions in famous Swiss resorts, as well as cultural and leisure activities organized.

The famous Summer Holiday Courses (June to August) offer language classes five mornings per week, with a choice of English, French and/or German. The afternoons are spent doing various sports such as football, basketball, tennis, swimming, water-skiing, rafting, horseback-riding, and half-day or full-day excursions to different places of particular interest.

We offer students a personalised experience that best suits their long-term goals and current attainments. We offer: 1 year or 18 & 24 month A-level; One year and intensive International University Foundation diploma; 1 Year intensive GCSEs as well as EFL and Academic English. Students are rigorously monitored and parents kept well informed of their child's progress.

This enables the school to provide targeted teaching and examination revision. Our teachers are passionate, highly skilled subject specialists, frequently consulted externally regarding their academic disciplines. Essentially our students receive both specific expertise in examination technique and a rich academic preparation.

In 2012, Abbey DLD student's university destinations reflect the level of our provision: 8 places taken at Oxbridge, 2 @ LSE, 11 @ Imperial, 33 @ UCL, 10 @ Warwick, 17 @ City London, 11 @ Manchester & 10 @ Aston. Adcote School for Girls is a unique, vibrant, independent school.

Established in 1907, the school has around 200 pupils on roll and is set in a magnificent Grade I listed building, surrounded by 30 acres of beautifully landscaped parkland. Adcote combines small class sizes and individual attention which go hand in hand with a wealth of extra-curricular opportunities.

In 2013, the school was ranked 4th nationally for the performance of pupils at A Level according to the Department of Education, as published by the Daily Telegraph and the BBC.

We welcome pupils and staff from over fifteen countries from around the world and they bring a wealth of cultural diversity into Adcote. We are careful to maintain an equal balance of pupils from different parts of the globe. Our international students are fully integrated into School life and are made to feel very much part of the family.

Adcote is proud to be a 'purely girls' independent school, from 4-18 years old. Adcote allows girls to flourish in an environment where they make lifelong friendships with other girls, and where they learn to become leaders.

The decision about which school to choose for your child is one of the most important that any parent has to make. We believe that Adcote offers its pupils the best possible opportunities to succeed.

Ashbourne College, based in Kensington in the heart of the capital, is one of the most successful sixth form college in London. It recruits equal numbers of British and overseas students, many of whom stay in student residences close to the College. Ashbourne is selective, requiring that all its students should have good English and a serious attitude to education.

Ashbourne is rated as 'Outstanding' by OFSTED, the government agency that inspects British schools, and enjoys excellent exam results. In Summer 2014, our A Level grades were 54% A*A; 77% A*AB and 91% A*ABC. Our students progress to top British universities, with our most popular destinations including the London School of Economics, Imperial College London, University College London, King's College London and the University of Manchester. And each year, a couple gain entry to Oxbridge. Many of these students take degrees in Medicine, Engineering, Mathematics, the Sciences, Business and Finance, as well as creative subjects such as Art and Fashion.

Established in 1929 with an excellent reputation, Basil Paterson College is based in the centre of Edinburgh. We offer a flexible range of English language courses whilst being Scotland's largest open examination centre for Cambridge and IELTS exams. Students can take courses to improve their English or prepare a specific examination in either group classes or with a course of individual tuition.

Our aim is for every student to leave us having reached their maximum potential. We structure our courses carefully to enhance learning and ensure progress. Small class sizes - with a maximum of 12 students - and 60 minute lessons ensure a successful academic experience.

Country Cousins is a specialist English School for Juniors located in North Devon on the coast of South West of England.

We won the British Council's ELTon award in 2014 for Local Innovation. First time that a Juniors' school in the UK has won such a prestigious international award. This was for our PALS scheme (Promoting acceptance of Language Students). The judges said: "A worthy project that is very effective". We integrate local teenagers in our activities with our foreign students, it has proved very successful.

We are a family business, established in 1951, accredited by the British Council, active member of EnglishUK and a Trinity College examining centre.

We are next to Exmoor National Park and Woolacombe beach (voted best beach in the UK by TripAdvisor for the last 5 years). This is a friendly and safe environment for children to enjoy our many activity programmes by the seaside, such as Adventure Sports, Riding, Golf, Beach Volleyball and Surfing.

Our reputation has been built on how much attention we give to every individual student and we guarantee the same to all our agents.

I look forward to meeting you in Berlin. I hope you have time to come by our desk and pick up our brochure or more information about our exciting courses and programmes for Juniors.

Elac Study Vacations is a small, but growing English Language School. It began in 1991 in Eastbourne, on the South East Coast of England, and initially ran a family stay course in that town. In 2000 Elac opened its first residential summer school, also in Eastbourne, and we now have 6 residential centres in Bath, Cardiff, Eastbourne, Horsham (West Sussex), Mayfield (East Sussex) & Nottingham. We also have 3 family stay centres in Bath, Brighton & Eastbourne.

Though Elac has grown as an organisation in recent years, the company still has the virtues of a small family-run business: a personal service, a high standard of care and welfare, attention to detail and a focus on quality. We are fully accredited by the British Council, members of English UK & Members of Young Learners English UK.

MLS an OISE school

Eckersley Oxford, Edinburgh School of English, Harven School of English, MLS Montreal and SES Folkestone are all part of the English by Octorial collection of language schools.

The schools provide an academic and learner-focused approach, where students are challenged to overcome perceived limitations to achieve their personal goals.

Tuition that is personalised and tailored to meet the needs of each student enables them to progress in a relevant and unique way that can be readily transferred to their professional and academic pursuits when they leave. Classes are taught in a maximum of 8 students per class, ensuring a high level of individual attention and support.

Our schools offer dynamic and challenging lessons for adults and young learners in England, Scotland and Canada.

Octorial programmes combine structured and carefully crafted lessons and workshops to develop communication and accuracy skills and to build confidence and fluency in English. We offer progress driven English to highly motivated students who wish to pass an exam, prepare for university, improve their English skills for work or for personal achievement.

The School is the IELTS and Cambridge Exam Centre for the South West of England and it has exceeded expectations of independent inspection bodies. We are also a Trinity TESOL teacher training centre.

Bristol is a friendly city with a rich history and is now a centre for creative, financial and high technology industries. With two thriving universities, it is a young and lively place. Big enough to offer great shopping, places to see and lots of cultural entertainment but small enough to get around easily and not feel lost.

As such, a Kilgraston girl benefits from a wealth of opportunities to extend and enrich her educational experience. We offer an enormous breadth of extra-curricular activities, and enjoy modern, state of the art facilities in sports, art, music and science.

Our co-ed language school blends English lessons with sports, activities and excursions to ensure not only a summer of great memories are made, but also long lasting learning in a fun and natural environment. We are looking to establish partnerships (Local Access Points - LAPs) with educational institutions who can make our blended learning degree programmes awarded by Anglia Ruskin University (ARU) available to students locally via blended learning.

All academic support will be provided to students by our lecturers with face to face administration and IT support from staff locally. This way, students have the ability to ask questions and even interact with fellow students, bridging that gap between class-room based and online learning.

We will provide full training to staff and conduct regular visits to your institution. Our LAPs will receive marketing materials and a dedicated page on our website to acknowledge the partnership. Set-up costs are virtually zero for established institutions who have space for at least 5 learners to access the internet and their study materials.

This model is perfect for an institution who wants to help make British Education accessible to students, wherever they are. Students don't have to take time out from work or family. They won't have to pay expensive visa costs or University fees but receive exactly the same qualification they would have received if studying on campus at ARU at a fraction of the cost of an international student.

We currently have 35 LAPs across the world but always looking to add more!

Lucton is a coeducational boarding school situated in a rural environment in the mid west of England. It is a small school with only 300 pupils in total from 3 to 19 years old. It has 90 boarders, nearly all of whom are in single rooms. It is non selective yet manages to get excellent examination results as it can create individual timetables rather than having to deal with large numbers. It has its own equestrian centre on site and good sporting facilities as well as offering Music and Art.

It is possible to take students for short term stays of a term or more and there is an academic Summer School specialising in English skills during July and August. There is a wide range of nationalities represented, but Lucton remains very much a UK boarding school that benefits from the presence of overseas pupils. Day pupils frequently take overseas students home and the school operates as one big family.

When it comes to a good education, one size does not necessarily fit all.

Founded in London in 1973 by three Cambridge University graduates, the MPW Group is one of the best known and well respected independent college brands in the UK. It comprises three fifth- and sixth-form colleges in London, Birmingham and Cambridge, providing highly attractive and modern learning environments located in close proximity to prestigious university campuses.

We are one of the country's best known providers of bespoke fifth and sixth form education, offering GCSEs and A levels in over 45 subjects. We also offer the University of London International Foundation Programme which has been developed by the LSE. This programme allows progression to some of the UK's top Russell Group universities in a wide range of social science subjects including economics, law and business.

MPW is distinctive in bringing the Oxbridge tutorial model to secondary education. Our ambitious students benefit from small classes no larger than eight, a personal tutor, exam preparation and UCAS support.

Each year, MPW places students at Oxford, Cambridge, Imperial College, UCL, LSE, Bristol, Edinburgh, Warwick, UK medical schools, and the University of the Arts London

New College of the Humanities has earned its reputation as a world-class academic institution that is leading the way in UK higher education. The Times describes NCH as offering "bespoke higher education" and as being positioned "at the forefront of a new era, the academic equivalent of space travel".

The College's combined honours degrees comprise a 'major' subject chosen from Economics, English, History, Philosophy, or Politics & International Relations, and a complementary 'minor' subject. The College also offers a single honours Law LLB degree.

Students combine their degree with the College's diploma. Designed to develop the insights required to lead a fulfilling and successful life, the diploma offers a rich mix of Applied Ethics, Logic & Critical Thinking, and Science Literacy, as well as a professional development programme. The NCH Diploma is awarded to graduates in addition to their degree.

Weekly one-to-one tutorials give NCH "the edge on even Oxbridge's one-to-two tutorial system in one crucial way" according to The Times. Like all teaching at NCH, one-to-one tutorials are led by qualified, inspiring and experienced academics with enthusiasm for teaching. Teaching styles experienced by students during their weekly 13.5 timetabled contact hours include small group tutorials or seminars, and interactive lectures with classes of fewer than 50 students, ensuring every voice is heard and every question debated.

Established in 2000, we are an English language school accredited by both the British Council and the Independent Schools Inspectorate and a member of English UK. We are located in the heart of the historic and picturesque city of Norwich.

All of our students receive a high level of individual care from the moment they arrive at the school and it is this individual attention, along with high quality English language teaching and small class sizes, that allows our students to feel quickly at home and make fast progress in learning English.

The teaching at Flying Classrooms is of the highest standard. Our teachers are fully qualified, dedicated and caring professionals, able to create a stimulating learning environment in the classroom. They all have CELTA qualification or above and between them have a range of experience in the English language teaching field.

Many of our teachers have extensive experience teaching exam preparation. This is evident in the consistently high exam results of our students. The average class size is 10 students, with a maximum of 14, ensuring that our teachers can give you the individual care and attention you need to achieve your goals.

NEW FOR 2016- RESIDENTIAL OPTION FOR MINISTAY COURSES!

Riviera English School is a medium-sized family owned school in Torquay, Devon, South-West England (Est.1996), offering EFL courses for adults, juniors and groups.

Interview with James Nicholls, Principal:

Q. Why choose Torquay?

A. Torquay is ranked as the UK's premier seaside destination (Tripadvisor 2014). Tripadvisor also ranks Torquay as No.3 place to visit in the whole of the UK after London and Edinburgh. We have a fantastic school building in the centre of town with panoramic sea views across the bay. Torquay is easy to get to from Heathrow Airport and more local airports Bristol and Exeter.

Q. What is your speciality or USP?

A. We offer a range of adult courses and a junior summer course; further to this our Ministay programmes and school group packages have become particularly attractive to agents. We are also well known for having an ocean sailing yacht, so we can offer English + sailing possibilities (or just a fun afternoon activity!)

Q. Why should an agent consider working with you?

A. We are in this for the long-term, we offer a great service with easy channels of communication, so you can talk to the right people when you need to. High quality courses which are excellent value for money.

The school is a specialist intensive school for girls and boys, aged 11 - 17 whose native language is not English. The aim is to give students from non-British backgrounds the best linguistic and academic results possible.

Classes normally have a maximum of 8 students. There are 150 students in the school, although this can increase to a maximum of 165. All teachers are double trained/qualified to teach English and their own subjects, such as Mathematics, Biology, Physics, Chemistry, Geography, History, Art and Business Studies.

This is to help ensure all lessons are fully understood and that language or cultural differences are not barriers to learning.

The school occupies clean, modern buildings, with excellent academic facilities.

The accommodation for students is mainly in modern single or double rooms with washbasins. Students usually stay at the school for a year and are then ready to move into a traditional British boarding school.

The school has a full-time future schooling adviser to help.

The school achieves excellent EFL, GCSE/IGCSE results on its main programme in relation to ability and offers quality academic Easter and Summer programmes.

The school is fully accredited by the British Council and the ISA (Independent Schools Association) and is a founder member of the British Association of International Study Centres.

St Christopher has a long tradition of welcoming and teaching students from around the world. Our new one-year programme, designed to develop English language skills, will enable students to either remain at St Christopher for an A-level programme or move on for further study elsewhere. Alternatively students may take the full A-level programme from arrival, depending on their command of the English language. The School is situated just 30 minutes from both central London and Cambridge. It has excellent transport links and is within easy reach of all London airports. We occupy a beautiful 38-acre campus in Letchworth Garden City, Hertfordshire. Our purpose-built facilities include teaching classrooms, art studios, design workshops, a theatre, photographic darkrooms, a climbing wall and a skate park. There are excellent sports facilities too: a 25-metre indoor swimming pool, all-weather tennis courts, a sports hall and gym and playing fields with pitches for football, rugby and rounders.

The School has had many years of experience in meeting the needs of international students. There are currently 60 international students at Tettenhall from 13 different countries. Relatively small numbers from each country ensures full integration with the English day pupils. There is a wide range of subject options at GCSE and A level. Recent pass rates at GCSE average 97% and at A level 99.6%. Such results enable students to access the best universities across the U.K.. Specialist English tuition is provided for our international students. Students are entered for English as an Additional Language examinations, including IELTS.

Whilst they are at Tettenhall students must have a guardian who is resident in the UK. If parents do not have a friend or relative living in the UK then the School can provide contact details for suitable guardians.

The Trebinshun learning method enables our clients to achieve maximum improvement in their English language in the time available to them. Our objective is to provide the perfect environment in which to learn, combining total immersion in English culture with the best in corporate language training.

At Trebinshun House our students live in the house where they have their lessons and eat their meals. In this way, no time is wasted through unnecessary travel.

Our courses are a mix of one to one and tuition in international groups of maximum four people, and our teaching team is extremely well qualified and experienced. Trebinshun House is a splendid mansion house in the Brecon Beacons, one of Britain's beautiful National Parks.

The accommodation is in very comfortable individual rooms, with a private bathroom, and the food is superb.

A course at Trebinshun House is ideal for all executives, managers and professionals, who need to improve their English quickly in a short space of time. We can provide almost any kind of tailor made course, e.g. for engineers, financial specialists, HR managers, production and logistics experts, doctors, lawyers etc. Our courses are extremely effective, our students make excellent progress, and we consistently receive excellent feedback.

The ELC is a support department within the University of Liverpool which offers English for Academic Purposes, General English and bespoke courses, including teacher development. We are looking for partners to help us promote our courses, particularly in Europe, from where we currently recruit only a small number of students. Our Academic English courses are primarily aimed at applicants who may wish to go on to study on academic programmes at the University, while our general English programme, Activate English, is open to all comers and is offered at from Elementary to Advanced level. It is aimed at adults and also offers the opportunity to prepare for IELTS, where required. In addition, students can choose between three options, namely full time study (21 hours), morning only study of general English (15 hours) or afternoon only study towards IELTS (6 hours). Students at the ELC are fully registered students at the University of Liverpool and enjoy the use of all the services and facilities offered to students on academic programmes. In addition, they can also take advantage of the inclusive ELC social programme and dedicated welfare facilities. The ELC is based on the University's city centre campus in the beautiful city of Liverpool and our premises are just beginning a major refurbishment and upgrade.

Our Homestay and Academy House programs help build future global leaders.

IEO's additional programs including ESL, SAT, ACT, and SAT II tutoring, extracurricular and community service options, and college counseling help prepare our students for the difficult college admissions process required by Ivy League and other Top Universities. IEO also provides housing, transportation, nutritious meal options, and the emotional support needed to help students succeed at these academically challenging institutions.

Through our affiliate, IEO has provided global students with the pathway to succeed at Elite U.S. Private Schools since 2003. IEO has hundreds of seats available in our diverse portfolio of High Schools and Universities.

Head of School

LCA has been serving students for 19 years with enrollment growing to over 500. We serve those who are just beginning their educational journey as well as those who are finishing high school and preparing for college.

If you visited us you would see students from a variety of economic, social, ethnic, and religious backgrounds. You would meet a staff not only dedicated to teaching but committed to helping students become adults who contribute to society in profound ways.

We've had students from over 40 countries attend our school. Our graduates have attended universities all over the United States and abroad.

The primary goal of international students while studying in the United States is to improve their English language skills. LCA provides ESL to students who request it. We also have a writing lab that students may use should they need help writing papers for classes. The goal of the writing lab is to help students with current writing assignments and prepare them for college and university studies.

Though LCA has grown over the years, we are small enough to provide individual attention to our students. We can provide the care that lets students know they matter, that reminds students they are more than just a number, and that allows students to receive needed attention from staff and teachers.

Manhattan Language, established in 2000, is an independent and homey English school located in the heart of New York City. Courses are affordable and classes are small, with an average of 10 to 12 students per class. Our teaching staff is made up of some of the most experienced, talented English teachers in New York. Our students satisfaction rate is very high- 100% in 2014 and students tell us that ML teachers are the #1 reason.

The school is medium-sized. It is big enough to offer at least 10 levels of English and a variety of program choices and small enough for our students to get to know the staff and other students well. We offer year-round adult courses and junior courses and teacher refresher workshops in the summer. In addition to general English courses, we offer Business English and TOEFL Test Preparation classes at the intermediate and advanced levels.

Many students tell us that they choose our school because of the lively classes and the professional and friendly teachers and staff. We also have a very strong Activity Program to help students explore New York City.

Manhattan Language is accredited by ACCET, certified by the University of the State of New York Education Department and a Quality English school. For more information, please visit www.manhattanlanguage.com.

The Newman School, in the heart of a great city, provides a diverse student body a college preparatory, liberal arts education based on Judeo-Christian values, intellectual rigor, and trust, guided by the spirit and philosophy of John Henry Cardinal Newman. The school encourages students to recognize the relationship between personal and intellectual growth, and seeks to nurture the intellect, and instill motivation, kindness, the desire for truth, and moral decision making. We believe that it is only in the context of exploring the possibility of a relationship with God, and acknowledging our responsibilities toward self and community, that we can pursue an education which prepares us for leading fulfilling lives. Newman's motto, "let heart speak to heart" establishes the tone for each day, encouraging students to form mature and stimulating relationships with teachers and peers; and to recognize their individual gifts. Sports, enrichment activities and co-curricular academic programs provide opportunities for student interaction beyond the classroom. Seeking to take the fullest possible advantage of our location in Boston's Back Bay, we participate in the life of this great city, enriching our students' academic experiences by incorporating the historical, cultural and educational resources of Boston into our curriculum.

Founded in 1969, The Windsor School is a private secondary school located in New York City. We are a day school with our own Homestay Coordinator who arranges Homestay Accommodation for our International Students. We are accredited by the Middle States Association of Secondary Schools.

Our school does not have a minimum English Language requirement for admission. We offer ESL classes, when needed, as part of our regular school program. Our small class size provides students the personal attention they need to develop their reading, writing, speaking and listening skills in English.

Our curriculum is carefully planned to meet the admission requirements for all colleges and universities. Courses are offered in English, Mathematics, Science, Social Studies, Foreign Language, and Art. Various elective courses are offered such as Business, Contemporary Issues, English Literature, Psychology, and Portfolio Art.

Mr James DeFeo
Assistant Principal

Mr Michael Levy
International Student Adviser

In addition to our regular school program for students in grades 7-12, we offer a Pre-University Year Program which is designed for students who have just completed their high school studies overseas and would like to spend one year preparing for admission to a university.

Students play on our soccer, basketball and track & field teams, as well as our club sports in tennis, bowling, and table tennis.

Several trips are planned during the year, including a trip to Disney World in Orlando, Florida.

Washington Academy, an independent private day and boarding 9-12 high school, is set in a town of less than 2,000. Its 400 students with a 1:13 student/teacher ratio, gives it a real family feel. Strategies such as pairing new students with local student mentors help them to quickly feel at home. WA makes the most of its coastal environment, integrating it into the science curriculum. The state champion Math Team enhances the rigorous math program with its 35 members.

Washington Academy offers a comprehensive college placement program with its early college programs, many honors and up to 13 Advanced Placement classes. Not all students are looking for a traditional academic program. WA also offers applied programs in marine/ocean sciences, Maine Guide Ecotourism, boat building, health occupations, robotics, engineering and culinary arts. Washington Academy offers over 100 clubs, activities and athletic teams. Our students are known to be fierce yet gracious competitors. Fellow students, faculty and the community members are their greatest fans. The school is the center of the community-a place where parents, students and educators truly look out for one another.

The comprehensive curriculum, including a summer academic and ESL programs, and high caliber faculty help to make it all possible.

**Mr Addam Shand
Director**

World Sports Camp is an international, residential, sports summer camp for children. WSC creates a safe and positive sports environment, where athletes from around the world, ages 8 through 16, can interact while improving their athletic skills. (Basketball, Soccer, Tennis, Golf) This is accomplished through positive reinforcement coaching, with skill level training, from high level, skilled coaches. In addition, WSC offers English classes to those athletes from outside the United States, taught by professionally licensed teachers for 2.5 hours a day for 5 days per week. World Sports Camp allows for athletes to choose which sports and to what degree they will be involved.

By empowering athletes to make their own choices, we feel that their involvement will be more enthusiastic and they will have a greater desire to participate. Attention is given to treating all athletes equally, with value and understanding given to the beginners as well as the advanced athlete. Camp life and off campus activities are an integral part of the World Sports Camp experience. Developing new national and international friendships through sports and other camp activities, improves the quality of life for all involved. Fairness, quality sportsmanship and enforcement of rules and regulations are emphasized both on and off the playing field. World Sports Camp is located at the Williston Northampton School in Easthampton, Massachusetts.

Groupement FLE was the first professional organisation in France to have established a code of conduct (1999) thereby committing itself and its member schools to an ongoing quality control process. Our members as a group aim to offer a guarantee of both service and quality to students. This "Reference of Quality" is based upon fixed criteria, concrete commitments and official quality controls, clearly defined in a reference document which every school present on this site fully adheres to. Groupement FLE also aims to promote its member schools as well as offering a space where they can meet, share their experiences and pool resources.

It is this global project combined with the strong mutual support between member schools and associated professionals which differentiates Groupement FLE from other quality certification organisations.

Quality English makes choosing the right schools for English language training easier by bringing together leading independent English language schools under a brand that you can trust. Quality Education makes choosing the right college, teaching in English, easier, as this new brand continues to grow with quality, independent providers.

INTERNATIONAL

All Schools and Colleges are well-established, are locally managed and have unique identities. They are not part of a chain. They are nationally accredited and their quality is continuously checked by listening to the people who actually use them: agents and students. We makes regular visits to locations in the UK, Ireland, Canada, South Africa, Australia, New Zealand and Malta and the USA to seek new partners and to check the quality of existing partners.

There is a fantastically rich choice of courses available across Quality English and Quality Education with far greater variety than you will find in most other groupings, all with the quality service for which we are well known.

Malaysia's efforts to position itself as a key regional education hub have received a boost with indicators of international enrolment growth in recent years along with increased government investment in the sector. The Malaysian Ministry of Higher Education (MOHE) reports that there were more than 103,000 international students enrolled in Malaysia in 2013, up from 27,872 in 2002 and 80,750 in 2009. The country has an ambitious goal – a part of its Vision 2020 programme – to reach an international enrolment of 200,000 by 2020, and is now targeting further growth within Southeast Asia, as well as from China, India, and the Gulf Region. To accelerate its progress towards these goals, Malaysia has set up Education Malaysia Global Services (EMGS) – a private agency under the authority of the Ministry – in order to brand and market the country as an international education destination.

MALAYSIA

Thanks to early reforms and strategic investment, Malaysia is ever more well positioned to expand its role as an important education destination for students from Southeast Asia and beyond

The British Council creates international opportunities for the people of the UK and other countries, and builds trust between them worldwide. We call this work cultural relations.

We work in over 100 countries, connecting millions of people with the United Kingdom through programmes and services in the English language, the Arts, Education and Society. We believe these are the most effective means of engaging with others, and we have been doing this work since 1934.

Our goal is to increase the knowledge and use of the English language across the world, and to encourage more students to come to the UK to study English, learn about UK culture and people, and perhaps move on to Further and Higher Education in the UK.

Our quality assurance scheme, Accreditation UK, supports the teaching and learning of English, helping to strengthen UK English language teaching in a highly competitive international market and building lasting relationships with the UK for millions of learners.

We greatly value the work that agents do to promote the UK as a destination to learn English. We aim to support that work by providing agent training programmes, relevant information and marketing resources.

Come and visit our stand to find out more about the British Council's work in English language teaching.

GoToStudy is a web-based lead-generation site helping overseas students find their ideal university, language school or agency by connecting them directly and allowing students to assess peer reviews.

Students can search through thousands of student reviews of universities, language schools and courses, and once ready, they can find agencies willing to help them apply to the course of their choice. Students can also use GoToStudy to connect with others from their country, or with similar course interests, and to participate in student forums discussing applications and life abroad as an overseas student.

Subscribed member institutions will receive automatic lead details for any student showing an interest in the institution or courses provided. All reviews are vetted by GTS before posting and institutions have the right to reply. Subscribed members also qualify for free banner advertising and blog articles to attract future students.

In challenging times, student recommendations will be your powerful tool for securing future business.

The Stay Club and The Stay Academy are an all year round residential school in central London. Each campus has en suite, self-catering, studio accommodation, combined with on site classrooms. There are two campuses; one in Willesden and one in Camden Town. All our facilities are modern and purpose built with a 24 hour reception and CCTV security cameras located throughout. Students can enjoy quality accommodation and academic excellence all under the same roof. Students wake up in the morning, have breakfast and then come downstairs to have their classes. What is the alternative? Besides providing our own courses, we also provide accommodation only packages through The Stay Club for international university students who come to London to study. What happens if you choose another school? If you choose another school your students will have to travel on a bus or public transport, every morning to get to their class across London. A journey of up to an hour each day. Choosing the Stay Academy is not a price option, it is the right option for a relaxed happy experience in London.

An Unforgettable Learning Experience in the Canadian Rockies – Wynchemna!

ESL/FSL Courses for students 10 to 23 years old during the months of July and August in Calgary and Vancouver.

What's unusual about Wynchemna? – 8 students per class! Non-stop English all day long through lessons and activities – winter or summer. On the last day, students say: "I love it - an adventure I will never forget....."

Do you want to promote high quality English learning outside the classroom as well as inside the classroom offering intensive English in the mornings; a variety activities in the afternoons and evenings: canoeing, kayaking, rock climbing, skating, games day, football, paperclip game, the Great Race, indoor soccer, baseball, etc. The highlight of the summer is our famous one-week camping trip through the Rocky Mountains.

Wynchemna's summer programme is full of fun, adventure, laughs, intensive English training and minutes away from the Magnificent Canadian Rockies!

Be careful when you check out Wynchemna's courses, you might want to join us yourself! And of course there is Wynchemna's Summer Road Trip Course: Calgary – Camping – Vancouver. Experience Two cities during one course.

The winter course is just as exciting: skiing, snowboarding, hockey, x-country skiing, curling and so much more.

INI Intern-National Ireland Ltd is a Dublin based internship agency specialising in the placement of young people, students, and graduates, into sector specific host companies in the Dublin area.

We are Dublin's most reliable internship provider. Our friendly & efficient team organises over 400 internships each year for European and non-EU participants. In addition, we also arrange language courses, accommodation services, and airport transfers. The internships we organise span a wide variety of business & technical sectors - from Secretarial through to Nanotechnology and every business sector in-between. We work primarily with partner agencies, however INI also works in partnership with colleges & universities, non-profit organisations, and local & regional public authorities in countries where we have no commercial partners.

We regularly work with groups and individuals travelling with the assistance of privately funded projects and also EU Mobility projects, and have the understanding and expertise to assist with the completion of all paperwork associated with public/private funded initiatives.

At ICEF 2015 - we are seeking to meet new partners and sending agents who are interested in recruiting an intermediary/hosting organisation that can provide the type of placements, assistance, and support which your clients/students deserve, as they strive to develop their skills and career prospects. Measurement of our success year-on-year is qualitative more than quantitative.

**Ms Christelle Dombasi
International Manager/
Incoming Students**

Established in 1963, ISC Paris School of Management is committed to providing business students with the high quality management skills to operate and perform in a global environment. ISC Paris is part of the highly selective French "Grandes Ecoles" recruiting system, which groups higher education establishments.
In France, only 50 management schools are entitled to run "Grande Ecole" programs (with a Master in Management), and a mere 30 of these, like ISC Paris, are members of the prestigious Conference des Grandes Ecoles. Awarded by ISC Paris, the Master Degree is endorsed by the French Ministry of Education. Over the past 10 years, ISC Paris has built up its reputation in luxury business management for which it has become most recognized.
We do propose a unique program in English: International Master in Luxury Business / Fashion in cooperation with Mod'Art International Fashion School.
The International Master (admission is available to international candidates who are recent graduates (bachelor or equivalent) aims at training outstanding future executives who are capable of balancing creative skills, scholarly wisdom and managerial excellence to address the issues faced by companies of the globalized luxury industry.
The International Master evolves around three intertwined modules:
Module 1 (3 months): Core courses
Module 2 (3 months): Fashion courses
Module 3 (6months): Professional development package

Since its inception in 1929, St Edward's College has placed strong emphasis on character formation, genuine inter-cultural understanding and leadership skills which have enabled our students to make significant contributions to the well-being of society. St Edward's new, coeducational 6th Form (Years 12 & 13), which offers the International Baccalaureate Diploma Programme, will continue this tradition of creating leaders in an increasingly competitive and technologically reliant world. Being student-oriented, St Edward's completely refurbished boarding facilities boasts unparalleled levels of comfort and privacy to boys in Years 7 onwards as well as to girls in 6th Form, Years 12 & 13 (aged 16-18).

Our approach to pastoral care ensures round-the-clock care and attention in an environment that provides both fun and academic excellence. Simply put, St Edward's Boarding School offers a 'home away from home' on an Mediterranean island which is not just safe and serene but one which is also rapidly establishing itself as a leading regional IT hub. Malta is set in the Middle of the sunny Mediterranean sea which places it only a few hours away from any major capital city in Europe. Boys in the Senior School (Years 9, 10, 11) are prepared for internationally recognised IGCSE(International) and SEC (local) exams. The language of instruction is English.

The London College of Contemporary Arts (LCCA) was founded on the principle vision of providing artists with the skills and technical-knowledge necessary to launch a rewarding career.

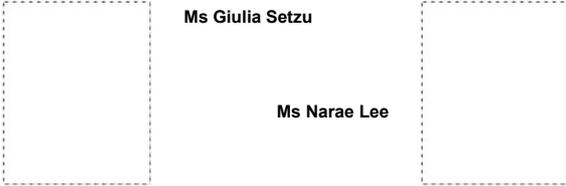

The programmes are intended to provide not only the space for students to develop and flex your creative muscles but also to bridge the gap between education and employment.

All our courses are specifically designed to be work-focused and to equip you with all the essential skills and experience desired by potential employers.

We proactively encourage students to explore your creativity, innovation, and entrepreneurship. During the students time at LCCA students will be introduced to new ideas, talented artists, and creative spaces in and around London, providing students with a prime opportunity to enter into, and be successful in, the exciting world of the art, design, media and fashion.

We aim to provide all students with a balanced and hands-on experience of creative processes and academic theory, by continually inspiring students to use their natural talents, engage through practical work, and provide opportunity for discussion and reflection.

Our courses are specifically designed to help develop ideas and ambitions, and aim to ensure that the knowledge and expertise acquired also opens the doors to professions where you can make full use of your new skills and experiences.

Wentworth Military Academy is a private co-educational boarding military high school and two-year college, fully accredited. For 9th-12th graders, Wentworth provides a 360-degree education, an exemplary college-prep education, which builds self-discipline and self-confidence. Small class sizes and personal interaction with faculty allows our students to achieve success in academics and in life. The military structure allows our cadets to learn and practice the basics of leadership each and every day, developing important skills they carry with them the rest of their lives. All Wentworth's students participate in athletics. A clear set of rules means our cadets are free to focus on achievement without the distractions so common in most schools today. Our dual enrollment program affords qualifying juniors and seniors, with GPA of 3.0 and above, the opportunity to earn college credits while simultaneously completing their high school graduation requirements. Wentworth produces mature young men and women who are self-motivated, well-educated, highly principled, self-confident, respectful of others, and loyal to family, friends, and country. We have students representing 18+ countries. Wentworth also offers Summer program - ESL and Leapership. A Culture & Language program is also offered throughout the year focusing on the Midwest American cultural experience and language proficiency.
